MANSA SERIES

FLAGSHIP MEETING COLLECTION FOR 0-BOUNDARY COMMUNICATION

Efficiency is one of the priorities in the boardroom. MT, with a modern style and a variety of specifications, can satisfy needs of different types of enterprises and space. In a meeting shaped by MT, the team fulfills tasks like members of a battleship. Exchange of ideas becomes a flagship efficient experience.

Canoe-light Table Feet

The geometric cutting of the lower feet make the cut surface have different visual effects when viewed from different angles, which is light and while having excellent load-bearing performance.

Table Foot Bevel Design, Larger Knee Space

The lower feet adopt a bevel design, the same design is adopted to the desktop with a 30° bevel angle, so that members seated at both ends can enjoy a large knee space of 541mm. When legs are free, users can focus on the discussion.

Well-organized Wiring, 0-interference Communication

The wiring is hidden in the lower feet, clean and neat, and does not affect the knee space. The desktop is functionally partitioned: making VIP reception, team communication, remote video more convenient and efficient.

Reliable loop-shaped Feet

Loop-shaped table foot makes the overall shape more stable, endowing the meeting a solemn and orderly atmosphere.

MT series has powerful adaptability featured by small size for group communication or cross-departmental decision-making and large size for organization and management meetings or formal business reception (6 to 30 people).

Minimalist straight line aesthetics

Arc curve for more comfort

Mellow chamfer, safe and collision-proof

°
Thick and Thin, Curved and Straight

The summation of confrontation and conflict. Thin table top meets volume feet; Round and soft corners at both ends combines with a stiff and straight edge in the middle... It seems to be a conflict and contradiction, but it is actually a clever design, which breaks the absolute and opposition, and makes the discussion of the meeting full of dialectical wisdom.
